ACTION AGAINST RAILROADS

Sensational Market of Saturday Succeeded by Period of Inertia.

NEW YORK, August 24.—Discussion in the financial district to-day had to to mainly with Saturday's sensational market, and announcement that the Stock Exchange had determined to take immediate official cognizance of the episode was received with general approval. A closer study of the day's business heightened the impression that in very large part it represented neither genuine short covering nor legitimate trading of any kind. It is the avowed purpose of the governing body of the exchange to probe the matter to the bottom. That traders and the speculative faction as a whole have taken warning was clearly evident from the 'burfacter' of to-day's operations. Throughout the day the market had frequent periods of utter inertia. market had frequent periods of utter

of the decline; middling, 9 11-16c, sales
were 155 bales on the spot and 10 to 10 to 10
with quotations 118 to point sunder Saturday's close. The low opening was accounted for in reports from Liverpool of possible
labor troubles in the Lancashire cotton mills
and the poor spot demand. Another factor
which reflected unfavorably on the market
was the continuance of receipts of new cotton in quantities greatly in excess of receipts up to this time last year. Speculative
activity served to advance prices slightly,
but otherwise there was little trading of
the many sources. The close was barely

STOCK EXCHANGE ORDERS INQUIRY

Names Special Committee to Investigate Remarkable Transactions on Market Saturday.

ORDERS PROBABLY MATCHED

Small Brokers Said to Have Revealed Names of Firms Responsible.

NEW YORK, August 21.-A special ommittee of five members of the New York Stock Exchange will conduct an investigation of the transactions of Saturday, when more than a million shares were bought and sold in enormous blocks, and in such a manner as to arouse suspicion that the sales were so matched as to create a fictitious impression of activity. The governing committee of the exchange took up the matter after trading had closed today, and in a brief session authorized President R. H. Thomas to appoint the investigating committee.

Therough Inquiry.

George H. Ely, secretary of the exchange, states that it is the intention of the governors to have a thorough investigation at once. The names of the members of the investigating committee will probably be announced to-morrow.

mittee will probably, be announced tomorrow.

The great volume of the trading during the two hours' session of the market on Saturday is shown by comparison with conditions to-day. The number of shares sold on Saturday was
1,099,990, while in the five hours of
trading to-day 287,900 shares changed
hands.

The belief that Saturday's sales were
manipulated had its origin in the fact
that shares were bought and sold in
tremendous blocks without greatly assisting the market prices, but the real
purpose underlying the movement has
not been ascertained, if it be ulterior.

Some of the more conservative members refused to accept the orders when
they became convinced that the sales
were "matched," an order to seil a
block of given stock being followed by
no' order through a different broker to
buy.

Have Given Names.

Have Given Names.

Have Given Names.

Certain small brokers who trade on the floor for the other members of the exchange, accepting a reduced commission of \$2 for 100 shares bought or sold, were reported to-day to have given the names of three or four firms which did practically all of Saturday's enormous business. Through them, the committee may be able to trace the source of the alleged simultaneous orders to sell and buy. A single firm was reported to have handled transactions amounting to \$00,000 shares—a business so great that its sheet did not reach the exchange clearing-house until Sunday morning.

The chief question before the investigating committee will be the identity of the prime mover in Saturday's extraordinary market. If it is found that the orders were matched severe discipline may be applied, as such a proceeding is in violation of the rules of the exchange. PORT OF RICHMOND, AUGUST 24, 1908.
